

Cashless Catering

Blythe Bridge High School & Sixth Form offers a biometric cashless catering system. The biometric system supports the improvement of our school meal services and will provide us with a more efficient, faster and ultimately better quality of service.

The system incorporates the latest technology and eliminates a need for students to carry cash throughout the day. We will introduce a biometric system which will recognise the thumb print of your child at the revaluation pay points and at the tills.

Any amount of money can be paid into a student's account and any money spent on food & drink will be deducted on a daily basis. Parents will be able to see cash available via Parent Pay.

As per current legislation, we will be operating an 'opt in' policy and therefore we will require you to complete an authorisation form, which is below for your completion. If you choose not to have your child registered on the biometric system a 4-digit pin code will be allocated to your child. Please note that PIN codes do not have the same level of security and it will be your child's responsibility to remember the code and keep it secure at all times.
