

WELCOME TO BLYTHE BRIDGE HIGH SCHOOL & SIXTH FORM

On behalf of governors, staff and our students, it is my privilege to welcome you to Blythe Bridge High School & Sixth Form.

Blythe Bridge High School & Sixth Form is a well-established and fully comprehensive 11-19 school with very strong links with our local primary schools and a partner school of John Taylor MAT. We pride ourselves on being an active and nurturing school committed to providing high-quality, inclusive education for all our students. We believe in fostering not just academic success, but also personal growth, resilience, and a love for learning that extends beyond the classroom.

The school aims to provide a high-quality, inclusive education to all and through our core values of pride, respect and kindness, we promote an ethos of mutual respect, where diversity is celebrated, and every member of the school community feels valued. While our school offers opportunities to experience creativity, awe and wonder, we also have the high expectation that students will gain the well-developed knowledge and skills that come from hard work and hard thinking and will prepare them best for success in examinations and in later life. We plan for the highest aspirations and take great pride in our achievements. We aim to ensure that all students have positive attitudes to learning, and are all helpful, kind and dedicated members of the school and wider community who care about each other.

We believe that education extends beyond the confines of the classroom as such our enrichment programme offers a wealth of extracurricular activities, including sports, music, drama, and various other clubs. These opportunities enable students to discover and pursue their passions, develop new skills, and build confidence and positive relationships. Our school regularly organises educational visits, guest speakers, and workshops, providing students with invaluable real-life experiences and broadening their horizons. Our curriculum is designed to be broad, balanced, and engaging, ensuring that all students can explore a wide range of subjects and develop

diverse skills. Our curriculum plans are meticulous and cater to the varied interests and strengths of our students. We also offer a range of vocational qualifications to prepare students for the ever-evolving demands of the workforce.

At the heart of our school's success is our commitment to teaching and learning. Our dedicated and experienced teachers employ a variety of innovative teaching methods to engage and challenge students. We strive to create a stimulating learning environment where every student can thrive and become an expert learner. Regular assessments and feedback ensure that students are aware of their progress and areas for improvement, while personalised support is provided to help each student achieve their full potential. We work hard to develop students and encourage them to become proud, kind and respectful citizens who are able to play their part and become actively involved in public life as adults. We understand that emotional well-being is crucial for academic success and personal development and operate a strong pastoral system which supports each and every student to ensure no child is left behind, that they feel valued and supported, academically achieve and holistically grow and develop during their time with us.

Positive relationships are the cornerstone of our school community. We foster strong partnerships between students, staff, and parents, believing that collaboration and communication are key to student success. Our staff are approachable and supportive, always ready to go the extra mile to help students succeed. We also encourage students to build positive relationships with their peers through teamwork and collaboration, promoting a sense of identity and belonging. By nurturing these positive relationships, we create a school environment where everyone can thrive and succeed. Together we can build on past successes and participate in future challenges to ensure your child has a happy and memorable time with us.

CULTURE & ETHOS

Positive relationships create successful communities. Governors and staff work together to promote high expectations for all students across the school, leading by example to model respect and excellence; values which underpin the school's ethos.

We aim to ensure that staff and students have positive attitudes to all learning experiences, and are self-respecting, generous and thoughtful members of the school community who believe in what we intend to achieve. Driven by values of pride, respect and kindness, our culture and ethos ensure that students build the habits of heart and mind that allow their learning to thrive through repeated and consistent practice. We want all stakeholders to create long lasting and effective partnerships and work relentlessly together to achieve success with a specific set of routines that everyone commits to implementing inside and outside the classroom.

We demand the highest standards and in return we respect students' ideas and opinions. Through our prefects, student leaders and the PRK committee, students have an active and important role in developing and improving their school. Similarly, we recognise that developing open partnerships with parents will help your child achieve their potential and ensure that they are happy at school. We host many events throughout the year where parents are encouraged to attend and we hope to see you joining us there.

“

There are positive and supportive relationships between staff and pupils. At break and lunchtimes, pupils socialise together. They are respectful and polite.

OFSTED 2026

ACHIEVEMENT

Our staff believe in providing the very best opportunities to all of the young people within our school. They generate enthusiasm for learning and provide experiences of the highest quality. We expect our students to be active partners in sustaining this ethos.

To enhance students' prospects for success, we ensure that teaching is personalised yet challenging and prepares them for lifelong learning. Each child is assessed in all subjects regularly. This enables us to monitor progress, recognise achievements and offer support where necessary. Parents receive regular progress reports. We have arranged our reporting schedule so that our key assessments, progress evenings and formal written reports are spread evenly throughout the year.

A team of specialist staff make up our Assisted Learning Department which provides essential support in the classroom, in small groups or on a one-to-one basis. All students with an identified special educational need have individual classroom support plans and are allocated a key worker.

“

Leaders have high expectations for what pupils can achieve. They act in the best interest of pupils in all that they do.

OFSTED 2026

“”

Pupils benefit from a variety of extra-curricular activities to develop their interests, talents and skills. There is a wide range of leadership opportunities for pupils to get involved in. These support them well in developing their character and understanding of how they can be active citizens. Pupils are proud to perform roles, such as prefects, house captains, year ambassadors and form representatives. Students in the sixth form set a positive example for their younger peers by taking on roles as subject ambassadors.

OFSTED 2026

CURRICULUM

We ensure that the curriculum we offer our students suits them and our high aspirations for them.

We foster connections between curriculum areas. We believe that skills depend on knowledge and our knowledge-rich curriculum lays the foundation for our students to develop their skills effectively. The school also knows that our students will play their best and fullest part in the world when they know the best that has been said, written and done, so we make reading and developing cultural capital central to all parts of the life of our school. While we are unashamed of the idea that a high-quality traditional classroom experience is often the best and most fruitful way to create students who will flourish in the rest of their lives, we also believe that school is a time for seminal, memorable experiences that do not fit into this pattern. Our students might visit the wonders of the world on a trip, they might overcome their fears and perform on stage, they might have a life-changing impact on those beyond our gates, but for many of our students, they will not have these experiences if we do not offer them. We want to offer our students some unforgettable spots of time.

Our curriculum contributes well to students' behaviour and welfare and it supports their spiritual, moral, social and cultural development and promotes British values. An outstanding range of enrichment activities, including music, sports, visits and opportunities to contribute to community events, enhance the formal curriculum.

“

Leaders have developed a positive ethos that is conducive to learning. They have high expectations for pupils' behaviour. Pupils consistently meet these expectations, and staff are proud to work at the school.

OFSTED 2026

Key Stage 3

Our programme covers all the National Curriculum subjects. Students are taught in ability groups in the core subjects English, mathematics, science, Spanish and French to ensure that every child is taught at a level that matches their ability. For the able and talented students, there are 'express' groups in the core where teaching and learning is specifically designed to accelerate students' progress. Other initiatives have been designed to develop students' reading ages and vocabulary to ensure that they are fully equipped to deal with the demands of the curriculum to progress as expected.

Key Stage 4

During our Key Stage 4 programme, the majority of students study the English Baccalaureate core subjects of English, mathematics, science, a modern foreign language and a humanities subject such as geography or history. A wide range of optional subjects which cater for different interests and career choices include art, technology, sport, dance, drama and ICT courses. We expect all our students to achieve at least eight passes at grades 9-1, including the English Baccalaureate subjects. Extended options offer additional qualifications for our able and talented students.

Sixth Form

Our Sixth Form provides an exciting pathway for students to continue their Post-16 learning in a supportive and ambitious environment. With over 30 A Level and vocational qualifications to choose from, students can follow academic, vocational or combined programmes tailored to their interests, strengths and future aspirations. We pride ourselves on offering a personalised Sixth Form experience, with small class sizes that enable staff to support, nurture and challenge every student to achieve their full potential. Alongside a broad and balanced curriculum, students benefit from excellent pastoral care, careers guidance and progression support, helping them take their next steps into higher education, apprenticeships or employment. Enrichment opportunities play a key role in Sixth Form life, helping students develop the confidence, skills and character needed to succeed both in school and beyond.

ENRICHMENT

Education is not limited to the classroom. We provide an educational experience that combines academic study with a range of character-building enrichment activities promoting equality of opportunity and diversity.

Our programme includes many clubs from chess to cheerleaders and Spanish film to mathematics code breaking. We are involved in many competitions including the national UK Maths Challenge. Both recreational and competitive opportunities are available in sports from football to trampolining and students regularly represent the school boasting a strong tradition of success in local, regional and national competitions.

We also offer students every opportunity to discover and extend their creative talents through music, drama, dance and art. Students may continue, or take up, instrumental tuition in a range of instruments. Our many music and dance groups perform on a regular basis both in school and out with our unique Festival of Arts and curriculum performance evenings providing parents with the ideal opportunity to watch their child's talents grow.

Departments organise a wide variety of educational visits linked to their curriculum from visits to France and Spain to geographical research expeditions to Iceland and cultural experiences to art galleries.

We also offer before and afterschool sessions for parents and carers. There is a daily breakfast club, Kickstart, where students are welcome from 8am to eat breakfast together and prepare for the day ahead and afterschool, there is homework club for students to complete their assignments tasks.

For the more adventurous, we offer the Duke of Edinburgh's award which provides plenty of opportunities to challenge our students to do new things and develop important life skills. All students have the chance to participate in a range of leadership activities which develop the life skills and attributes that employers are seeking. Year 11 students are encouraged to take part in the government's flagship youth programme, the National Citizen Service (NCS), once they have completed their GCSE examinations.

For those interested in developing their leadership skills further, there is a wealth of opportunities available from joining the school council to collaborating on diverse charitable projects. Students can gain leadership accreditation in the subjects of dance and sport as part of their enrichment programme or alternatively, some students can become charity ambassadors, peer mentors, or careers or PRK champions.

SUMMER SCHOOL

We are proud to offer an exceptional Summer School programme, a provision that is rare nationally. For the past six years, over 120 students have chosen to attend the Summer School each year. It provides invaluable opportunities to build new friendships, become familiar with the school environment and routines, and develop confidence ahead of their transition to secondary school.

Students attending, take part in a wide range of engaging activities delivered by our specialist staff. Sessions include cooking, design technology, art, science, drama and sport, providing children with an exciting introduction to life at Blythe Bridge High School & Sixth Form. Reading remains a key priority throughout the programme, with every student receiving a book to encourage a lifelong love of reading. Feedback from families highlights the positive impact of our provision:

"Our child was anxious about starting high school, but the practical activities and supportive staff helped them settle quickly. They made new friends and were excited about joining the school."

"An outstanding provision! Our child enjoyed the experience so much that they attended both the July and August sessions. We are very grateful to the staff for creating such a welcoming and positive environment."

Rooted in our values of Pride, Respect and Kindness, our Summer School reflects our commitment to ensuring every child feels supported, valued and excited about the next stage of their educational journey.

CARE, GUIDANCE & SUPPORT

The level of care, guidance and support for students is taken very seriously and our main aim is to raise aspirations across the school so that all students may achieve their true potential.

Transition

We understand that the transition from primary to secondary education can be both exciting and challenging for both students and parents. This process is facilitated by the strong partnerships we have with our local primary schools with whom we work closely to ensure that transfer and progression are as smooth and effective as possible. We have an experienced team that organises and implements a broad range of activities such as Year 4 Olympic Legacy Day, Year 5 Maths Puzzle Day, Physics Fest and regular Year 5 and 6 transition activities. There is an induction programme for both students and parents to help with this process and introduce you to our community. Upon starting in Year 7, students fall under the responsibility of their Head of Year whose role it is to ensure their successful integration through a range of activities.

Individual care

The positive ethos is underpinned by our pastoral system which promotes a proactive culture of support. Students benefit from sharing experiences with children of their own age whilst being part of a system that creates exciting opportunities to mix with other year groups. There is a Relationship, Health, Sex Education and Personal Development programme which supports students' wider development and promotes British values. Form tutors have daily contact with their tutees providing them with support, recognition of achievements and advice. They move through the years with their tutor group, watching them grow and progressing together. Strong relationships are at the heart of this system, formed between students and tutors, but also parents and tutors. Parents are encouraged to contact the form tutor whenever they have a concern. Heads of Year track and monitor behaviour and progress across the whole year group and ensure that effort and achievement are rewarded accordingly. The pastoral team support the pastoral care of the students and play an important role in shaping students into good citizens.

We know that taking care of our students and monitoring their progress go hand in hand. Our pastoral team is the first port of call for students and parents seeking advice, care and guidance. Those responsible for overseeing the well-being and safety of all our students comprise the Senior Deputy Head (Culture & Ethos), the safeguarding team, the Business and Operations Manager, the Heads of Year and their teams, the Special Educational Needs Co-ordinator (SENCO) and the Key Stage Pastoral Managers.

“

Leaders ensure that pupils get the wellbeing support they need. Pupils know how and are confident to access it if needed. Leaders provide a wide variety of opportunities to develop pupils' talents, interests and character.

OFSTED 2026

SCHOOL UNIFORM

We believe that the Blythe Bridge High School & Sixth Form uniform plays an important role in creating unity and pride and in maintaining high standards. Our uniform is compulsory for all Year 7 to 11 students and parents are asked to support the school's high expectations on uniform and appearance. More information about our uniform, kit requirements for PE, including where it can be purchased and the range of acceptable items, can be found on our website www.bb-hs.co.uk.

Girls Uniform

- Blythe Bridge High School & Sixth Form black suit jacket
- White and blue pinstriped open neck blouse or plain white open neck blouse or plain white shirt (long or short sleeved)
- Blue striped scarf with swam emblem or blue and black clip on tie
- Blythe Bridge High School & Sixth Form pleated knee length skirt
- Black suit style trousers
- Black and blue pullover or slipover (optional garment)

Boys Uniform

- Blythe Bridge High School & Sixth Form black suit jacket
- White and blue pinstriped shirt or plain white shirt (long or short sleeved)
- Blue and black clip on tie
- Black suit style trousers
- Black and blue pullover or slipover (optional garment)

CAREERS ADVICE AND GUIDANCE

Careers Education Information Advice and Guidance (CEIAG) starts in Year 7 and continues through until Year 13 to ensure that students develop the skills, attitudes, qualities, behaviours and self-confidence to plan their future careers.

Students will choose the career pathway that best suits their individual needs and aspirations and enables them to fulfil their potential. All students are provided with impartial guidance from a variety of sources which include our RSHE and Citizenship programmes, annual careers day, options evenings and much more. Work Experience in Years 10 and 12, visits to colleges, universities and employers all take place throughout the year to raise the aspirations of all students.
